Construction variants to the front canvas:

All of our suits are made using four layers of canvas, however there are three variations of construction giving different levels of quality and feel.

Variant
FB
Fused lapel

This is the EASY construction, used only for our SQ system.

Fused front, chest canvas to lapel break only.

Variant
PB
Padded lapel

Our STANDARD TECHNOLOGY for MTM.

Fused front, chest canvas with padded lapel to help with lapel roll and create more stability.

Variant
CB *
Full canvas

The HIGHEST LEVEL TECHNOLOGY for MTM.

No fusing on the front, fully lined using a specially developed Italian canvas with padded lapel. Resulting in a durable garment with a traditional feel.
